PROFESSIONAL SUMMARY

Implementation and Project Management Professional with 10+ years of experience leading SaaS and enterprise system deployments across healthcare, payments, hospitality, and technology environments. Proven track record of managing full project lifecycles, coordinating cross-functional teams, supporting technical implementations, and driving successful go-lives. Known for adaptability, stakeholder communication, and delivering projects on time and within scope in remote and hybrid settings. Recently expanded into AI-driven automation, building multi-LLM agent pipelines and intelligent process automation to accelerate delivery.

CORE SKILLS

• Implementation Management • Project Coordination • SaaS Deployments • Go-Live Planning & Execution • Cross-Functional Collaboration • Risk & Issue Management • Client & Stakeholder Communication • Training & Onboarding • Documentation & Reporting • Jira, Salesforce, Smartsheets, Confluence • Office 365, SQL, Azure

AI & Automation: • AI/LLM Integration (OpenAI GPT-4/5, Anthropic Claude APIs) • Multi-LLM Failover Architecture • AI Agent Orchestration (Skyvern, n8n) • Prompt Engineering • Retrieval-Augmented Generation (RAG) • AnythingLLM & Obsidian Knowledge Systems • AI-Driven Process Automation • Python • JavaScript • REST APIs & Webhooks

PROFESSIONAL EXPERIENCE

Implementation Project Manager

Global Payments | Remote | Jan 2022 – Jul 2025

- Managed full life-cycle SaaS implementations across Corporate headquarters, stadiums, Hospitals and college universities
- Integrated clients with third-party applications via APIs, partnering with engineering teams and external vendors to ensure accurate data exchange, thorough testing, and successful go-live deployments
- Led kickoff calls, project planning, execution, go-live support, and post-implementation handoff
- Facilitated daily and weekly stakeholder communications with customers, sales, product, and technical teams to ensure alignment and issue resolution
- Developed custom workflows to align implementations with client operational needs
- Created and maintained training documentation, workflows, status reporting and best-practice guides for customers and internal teams using Jira, Smartsheets, Salesforce, Confluence and Office 365

Implementation Manager

Global Payments | Remote | Nov 2020 – Jan 2022

- Managed full-cycle POS implementations, including installation, configuration, testing, and troubleshooting of hardware and software in fast food restaurants with 50% travel
- Acted as technical liaison between customers and internal teams
- Conducted customer onboarding and system training to prepare clients for successful go-lives
- Served as a subject matter expert during implementations, supporting adoption and issue resolution

Field Implementation Engineer

Toast | Atlanta, GA | Oct 2018 – Apr 2020

- Executed full-cycle POS implementations, Installed, configured, and supported POS hardware, software, and network environments in hospitality environments
- Served as lead technical contact and subject matter expert from pre-sales handoff through post-live support
- Delivered remote and onsite training to enterprise and mid-market customers, onboarding 15+ clients per month
- Identified software and hardware issues, documented cases in Salesforce, and partnered with internal teams to drive resolution
- Supported early-stage startup growth by helping establish scalable implementation and customer success processes

ADDITIONAL EXPERIENCE

Technical Project Manager (Contract)

AT&T | Atlanta, GA | Dec 2016 – Oct 2018

- Coordinated high-visibility, time-sensitive technical projects supporting multiple enterprise applications and release cycles
- Led daily executive-level status calls, aligning engineering, application, and leadership teams on risks, defects, and next steps
- Analyzed and prioritized testing defects, accelerating resolution outside standard BAU processes to maintain delivery timelines
- Created detailed daily and end-of-day reports using Excel and native defect tracking tools to support strategic decision-making
- Managed escalations and communicated project status to Director and VP-level stakeholders, ensuring accountability and momentum

Implementation Manager (Contract)

Rollins Inc. | Atlanta, GA | Sep 2015 – Aug 2016

- Managed nationwide CRM system implementations and training initiatives across multiple regions with up to 75% travel
- Lead two-week onsite implementation and training engagements for regional managers, technicians, and district leadership
- Managed and mentored a team of Training Managers, guiding execution from planning through delivery and rollout
- Developed training plans, materials, schedules, and post-training performance reports

Implementation Consultant

NCR | Alpharetta, GA | Apr 2013 – Sep 2015

- Executed full-cycle software implementations using Waterfall methodology for stadiums, venues, and concessions clients
- Led projects involving 2–10 implementation resources, coordinating timelines, deliverables, and client communications
- Conducted onsite client training, system configuration, and go-live support to ensure operational readiness
- Served as liaison between clients and development teams, translating business requirements into technical configurations

- Tracked implementation metrics using benchmarks and scorecards

Implementation Consultant

Kaiser Permanente | Atlanta, GA | Jun 2010 – Apr 2013

- Supported enterprise software implementations and client-facing training

Help Desk Coordinator / Store Manager

Associate Auto Parts | Linden, NJ | Jul 2006 – May 2010

- Provided technical and customer support while managing daily operations

EDUCATION**Bachelor's Degree – Computer Information Systems**

Lincoln University, PA
